

# How to use OverDrive Read

With OverDrive Read, you can borrow and read eBooks right in your browser with a single click. You don't need to download files or install extra software.

To **START** using OverDrive Read, borrow an eBook from your library's OverDrive website, then click or tap the **Read** button next to the eBook on your **Bookshelf** (under your **Account**). The book will open in a new tab in your browser.

## THE BASICS

Click or tap the right or left edges of the eBook to turn the pages.

Click or tap and hold a word to [define it](#), [make a note](#), or [highlight some text](#).

Click or tap the bookmark icon to save a bookmark. On smaller screens, tap the middle of the screen to make the bookmark icon appear, then tap the icon to save your bookmark.

## To Access the Menu:

On larger screens, select the

button at the top of the screen.

On smaller screens, tap the middle of the screen,

then tap the menu icon.

## THE MENU

- **Search:** Look for a word or phrase in the eBook text.
- **Chapters:** Browse the eBook's table of contents and quickly jump to chapters.
- **Marks:** View the bookmarks, notes, and highlights you've placed in the eBook.
- **Readability:** Adjust the eBook's text size, lighting, and font (available for most eBooks). Learn more about the readability settings below.
- **Download:** Cache an eBook in your browser (or on your iOS device's home screen) so you can read it later without an internet connection.
